SUBJECT INDEX TO VOLUME 9

Amenorrhea, weight related, 75
Antibiotic treatment on semen quality in asymptomatic infections of male accessory sexual glands, beneficial effects of, 65
Association of past Trichomonas infection with tubal inflammatory damage, 49
Asymptomatic infertility patients, prevalence of intraperitoneal chlamydial antigen in, 283

Clomiphene citrate stimulated cycles: luteal phase after follicle aspiration for oocyte retrieval, 199

Defects of oocytes and preimplantation embryos resulting from enterobacterial infection in semen, 299

Ejaculates collected at intercourse and use of silastic seminal collection device vs masturbation: parameters and improvements, 57
Ejaculates via masturbation, qualitative and quantitative seminal losses during production of, 153
Endocrine and spermatogenic functions in patients after monolateral spermatic cord torsion, 265

Follicular growth curve characteristics in evaluation and treatment of female infertility, 225

Genitourinary infections, male infertility and, 129
Genito-urinary infections, oligospermia, and obstructive azoospermia: etiologic factors, diagnosis, and microsurgical treatment, 363

Hyperandrogenaemic ovarian insufficiency, sonographical and hormonal studies of, 17

Improving spermatozoa quality and yield with buffer pretreatment prior to washing, 353
Injection methods (intraperitoneal versus subcutaneous) used for inducing ovulation in hamster, comparison of, 347
Intermittent hyperprolactinemia and unexplained infertile couple: placebo controlled study of combined clomiphene citrate, bromocriptine therapy, 1
Intrauterine contraceptive use: relationship to severity of pelvic adhesions and pregnancy rates following salpingolysis, 101
Intrauterine insemination for treatment of infertility, 217

Luteinized unruptured follicle syndrome, treatment modality for patient with, 311

Menstrual characteristics of patients with endometriosis, 71
Multiparous asymptomatic patients, uterine anomalies in, 95

Ovulation induction by human menopausal gonadotropin: reappraisal, 189

Penetrating capacity of human spermatozoa into human cervical mucus and zona-free hamster eggs, comparison of, 37

Psychodynamics of infertility in women, investigation into, 325

Reversible male infertility caused by sulphasalazine, 321

Secondary amenorrhea and infertility due to retained laminaria fragment, 241
Sex chromosomal mosaicism 45, X/46, XX/47, XXX in females with increased fetal wastage, 119
Sperm banking: infectious diseases, 161
Spermiograms of men, variations in, 275
Stress and stress management for infertile couple: cognitive-behavioral approach to psychological sequelae of infertility, 171
Syva Microtrak test for chlamydia: excellent office screening test, 181

Testicular steroidogenesis in healthy men, prolactin potentiates clomiphene-induced activation of, 145
Treatment of retrograde ejaculation by timed intrauterine insemination of washed sperm harvested from iso-osmotic, alkalinized urine voided after ejaculation, 257
Tubal surgery candidates, patient versus physician rated prognosis of conception in, 109

Unilateral salpingectomy and post-operative fertility, 289
Use of pelvic sonography and serum estradiol and progesterone assays in diagnosis and treatment of cervical factor, 247
